SAS ONE Pvt Ltd, Lucknow, India

Jan2023– June2024

Front-end Developer

Technologies: Next.js, ReactJs Tailwind.css, CSS, JSX, Context Api, google search console, Restful API , JavaScript, Postman, Debugging , DOM Manipulation, Local Storage , cookies

As a Frontend developer I worked on [Education Times](#) and [Times Ascent](#) and I also work on the **Admin Panel** of both Website.

- Integrated **third-party APIs** to enhance website functionality and user experience.
- Implemented **user authentication and authorization** mechanisms, including nextAuth.js, for secure access to web applications.
- Use **AMP Tag** to create high-performance, mobile-friendly **dynamic web-stories**.
- Enhance the website's performance to achieve a minimum score of 75+ for mobile devices and 95+ for desktop .
- Utilize distinct schema for both list and detail pages across the website.
- Worked closely with UI/UX designers to translate design mockups and wireframes into functional web pages.
- Collaborated with back-end developers to design and consume **RESTful APIs** for seamless data integration.
